**Subject:** Objection to incinerator at Hapton Valley Transfer Station

[CAUTION: This email originated from outside of the organisation.]

[REDACTED]

Dear Sir/Madam,

I am writing to object to the proposal by ETGAS Burnley Limited to operate a small waste incineration plant at Hapton Valley Transfer Station, Hapton Valley Estate, Accrington Road, Hapton, Lancashire, BB11 5QG on the grounds that I do not believe the fire-fighting facilities on the site are sufficient to cope with a major fire.

There have been several fires on the site over the last few years which have caused significant disruption to the area for prolonged periods due to the closure of a nearby major road (Accrington Road) by the Fire Brigade in order to draw water from the local canal. It concerns me that the management of the site over these years appears neither to have been able to prevent the outbreak of these fires, nor to have installed adequate resources on the site to extinguish them.

Yours faithfully,

[REDACTED]
