**Subject:** ETGAS application 2023/01/SWIP

[CAUTION: This email originated from outside of the organisation.]

[REDACTED]

Sir,

Regarding the application by ETGAS 2023/01/SWIP, I strongly oppose the granting of this.

The present incinerator at the site gives off foul odours and wind dependant we can not open windows or sit outside due to the obnoxious smell making you want to vomit.

I fear the this would be magnified if this were to be granted.

Chimneys / exhaust flue would be spewing out right across the valley to my property.

The existing incinerator on that site already fills the valley with obnoxious stench making the cemetery and woodland walk in the valley a no go area, and nuisance for anyone attending the crematorium or cemetery.

Yours

[REDACTED]
