Subject: Hapton Valley Gasification Plant

[CAUTION: This email originated from outside of the organisation.]

Good evening,

I am emailing with an objection towards the proposed building of the gasification plant in Hapton [REDACTED] [REDACTED] have so for over 20 years. My concerns are that the area that we live in will be subject to increased air pollution, smoke and traffic as well as subsequent smells from the burning of waste. In recent years the village has become subject to numerous new buildings and the current new units being built on Manchester Road are causing an increased amount of traffic on the roads not to mention destroying the once beautiful views/countryside we have surrounding us. We do not need another development adding to this. I would be grateful if you would take these views into consideration.

Yours Sincerely,

[REDACTED]
