[CAUTION: This email originated from outside of the organisation.]

Hi I'm sending this email about the letter we got at Valley Gardens Hapton Burnley about a waste fuel gasification, We think we have enough going on down here without more things happening, we've objected to a few things and nobody seems to take notice, we all should have a meeting before anything is done, we've no buses it's dangerous crossing the road, there's a numerous off thing's and nobody seems to know that we exist apart from when our council tax is being taken every month. Please listen to us. from [REDACTED]
Thank You.
