Objection to application 25/001/CBP

Dear Sir/Madam

Regarding above application submitted by Riley mixed concrete.

My objections to the above are;

The noise and dust that these vehicles are creating each day from Riley's is ridiculous. The mess it creates when they drive past and the dust is a real problem for the residents health and wellbeing.

We have enough traffic as it is with the abbatoir vehicles coming in and out of the small access road. They have become alot busier in past years, so extra vehicles from Riley's cement is just not acceptable. The constant banging and noise and smell from that place in itself is horrendous.

There is only this one road in and out, which is right Infront of our houses. I don't know how much more that road could take with the size of vehicles in and out 24 hours.

Most of time I've to keep windows closed, the windows are always dirty along with pathways and cars parked nearby.

I therefore strongly urge the council to reject this application on the grounds of the residents health and wellbeing in Dunnockshaw.

Please record this letter as a formal objection on the public register. I would appreciate that confirmation of this letter has been registered.

Yours Sincerely
